PROJECTS

PORTFOLIO -[WEBSITE](#)

- Crafted a stunning React portfolio site, complete with 4 customizable background images and comprehensive displays of certificates, qualifications, projects, and skills.

MOODIFY (SPOTIFY-CLONE) [WEBSITE](#)

- Designed and developed Moodify, a sleek and functional Spotify clone, using HTML, CSS, and JavaScript
- Demonstrated technical proficiency and creativity while improving problem-solving skills in the development of this project.

TEXT-WIZARD — [LINK](#)

- Text Wizard: a user-friendly and visually appealing text editing tool with a comprehensive set of features, prioritizing privacy and security.
- As the sole developer, I am dedicated to providing the best possible experience and incorporating user feedback to continuously improve the tool.

CPP CHAMPION — [WEBSITE](#)

- Cpp Champion is a comprehensive site offering C++ developers a wealth of resources. With a collection of free components, a repl compiler, and downloadable books, it's the perfect platform for mastering the language. As an avid user, I highly recommend Cpp Champion to anyone looking to improve their skills and expand their knowledge.
